

Barricade II Alfalfa

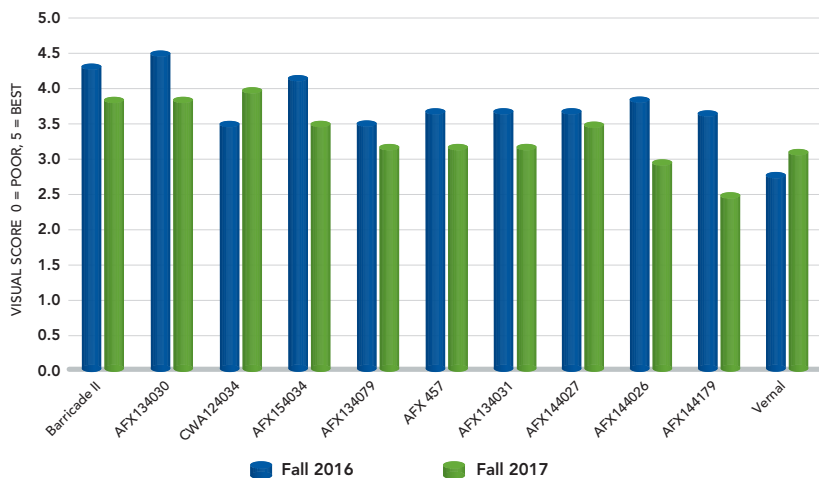

Barricade II Alfalfa

For tough growing conditions, Agassiz Seed and Supply has your solution. The original Barricade SLT was bred to handle the toughest ground and many growers have maximized their return per acre under tough growing conditions by planting it. The next generation of saline tolerant alfalfas is here with Barricade II. This variety was selected for both improved germination and forage production under high salinity conditions. This variety will allow producers to improve production and profits while utilizing all the acres available to them. Barricade II will also produce high yields on normal soils. The ability to grow under most any soil conditions, a complete disease package and excellent winter hardiness will allow for maximum production during the life of the stand of this variety.

Alforex Salt Yield Trial - Price, Utah

Alforex Salt Trial Visual Score - Price, Utah

Key Features

- Next generation salt tolerance
- Improved establishment and vigor in saline conditions
- Max economic return under tough soil conditions
