

For-Max™ Brand Alfalfa

For-Max™ Brand Alfalfa

For-Max Brand Alfalfa is a high-yielding, winter hardy blend of proprietary alfalfas adapted specifically to the Northern Great Plains. The large leaf matter delivered from For-Max makes this option an extremely high-quality, palatable forage. With an excellent disease rating, For-Max will produce powerful tonnage in a variety of environments.

Performance in Trials

Key Characteristics

High forage yield

Excellent stand persistent

Broad disease and insect resistances

Mid multi-foliat expression

Winter Survival & Adaptation

Fall Dormancy	4.0
Winter Survival	1.6
Stand Persistence	Excellent
DRI	34/35
