

Hydra Tack

Erosion Control Additives

Hydra Tack

- Description:** Hydra Tack non-asphaltic tacking emulsion. Hydra Tack is a pure gum tackifer. It is a powder form of guar, which glues straw mulch. Binds hydromulch fibers together to prevent wind and water erosion.
- Application Rates:**
- | | |
|---------------------|------------------|
| 4:1 to 3:1 Slope | 30 lbs. per acre |
| 2:1 Slope | 60 lbs. per acre |
| Straw Mulch Binding | 30 lbs. per acre |
- Mixing Instructions:** When the hydraulic hydroseeder is one third full of water, slowly add Hydra Tack and agitate into a uniform slurry.
- Loading Sequence:** Refer to the equipment manufacturers loading sequence instructions.
- Site Preparation:** Grade preparation should divert water flow away from the face of the slope.
- Storage:** Maintain packaging integrity. Protect from weather, moisture, and high temperatures.
- Handling:** Slippery when wet. Clean up spills immediately.
- Manufactured by:** Innovative Turf Solutions
